

Dear bOHP Providers,

Happy New Year! Many providers have requested an example of a bOHP caregiver interview as a way to help train their staff. Enclosed is a 10 minute interview with a father and his toddler. The video can be found on the bOHP website under the log-in section —> Training for the dental team (first panel) —> Provider videos.

We have included a direct link to the video below. We hope you find this helpful as you continue to incorporate early childhood oral health into your clinical practice.

Best,

The bOHP Team

Caregiver Interview
